

I do not support the LPFM filing. I listen to a station, K-LOVE, that is available over an FM translator service. I do not want to lose this service. This community supports K-LOVE radio and does not wish for it to be removed from our local broadcasting; there are no other such stations dedicated to Christian music in this area. K-LOVE is more than just a music station. This is truly an interactive station in that anyone can contact K-LOVE in personal request or specific support need. Please do not force LPFM to remove K-LOVE from our local FM translator. Thank you. W.A. Winters
